

The New York State Smart Grid Consortium (NYSSGC) Membership and its Benefits

Overview

Membership in the New York State Smart Grid Consortium (NYSSGC) provides organizations with access to the industry leaders that are part of this unique public-private partnership devoted to promoting broad statewide implementation of a safe, secure and reliable smart grid. As a non-profit organization established specifically to accelerate grid modernization throughout New York State, the Consortium serves as a very strong forum for member organizations to develop and shape future policies, projects and strategies.

Membership Benefits	
High-Level Networking with Key Influencers	<ul style="list-style-type: none"> • Opportunities to network with the major utilities, technology providers, policy makers and research institutions. • Build relationships with leaders and key personnel from the organizations that are charting the path for New York’s evolving smart grid landscape.
